TO WHOMSOEVER IT MAY CONCERN

This is to certify that Ms.Riddhi Oza has completed an Internship with us from 22/08/2022 to 22/11/2022.

Riddhi has been working under the supervision of her mentor Dr. Dhananjay Kalbande and Dr. Surendra Singh Rathod while working as a ML & NLP Developer Intern on the AutoBuddys Research Project at Sardar Patel Institute of Technology in collaboration with TISS and Mumbai University. The entire tenure of her internship was conducted offline in the college itself with a few field visits to external organizations.

During the internship, Riddhi demonstrated a satisfactory approach toward eagerness to learn. We wish her all the best in all future endeavors.

Report on activity under Halp Technologies

One workshop conducted under Halp technology on 1st February 2023 from 1.30pm onwards. Around 80 students from TE mechanical, TE ECS and computers attended the workshop. Halp experts briefed on

- What are the benefits of studying abroad?
- How much does studying abroad cost? (Includes estimated living costs by country!)
- Which country should I pursue for study abroad?
- Which programs are the best in each country? What are the career opportunities?
- How do I secure a study visa & get accepted into my dream program?

Country Deep Dive – Canada 🇨🇦

India is the #1 source country of approved applicants for post-graduate work permits

Attend College or University!
This allows you to graduate with a degree.

Job Hunt!
A number prior to graduation, you're looking for jobs or you're eligible for the post-graduate work permit.

Graduate & Start your job
Graduates with a college or university degree. Start your career in a field related to your college program. Your post-graduate work permit lasts for 3 years.

Apply for a visa extension
After 1 year, apply for a visa extension. This will need to be submitted by your current employer. This process may take 4-6 months.

Work in Canada
For the first 3 years, you can work in any field.

Apply for PR Status
You need to have been working & living in Canada for at least 3 years. This processing time is approximately 8 months.

Become a Permanent Resident!

Hello, my name is Upmanyu Jha aka Hackergod00001 an Upcoming ML Engineer at Day & a Bug Bounty Hunter at Night adding to it I am the founder of HAWK-i Pentest (My Start Up) and a final year student at Fr.CRCE. I recently completed the CEHv11 (Certified Ethical Hacker v11) Course and will take my certification exam on February 15th, 2023. This CEHv11 Course helped me a lot in understanding the detailed theoretical concepts of hacking and securing the IT Assets and making Reports for the IT Companies.

After Completing the Course I have given 2 workshops till now on cybersecurity at Fr.CRCE for various Student groups and Live Bug Bunty workshop as well and will be giving more as after learning something new it was my responsibility to help people understand the importance of security and the best way to earn side income from Bug Bounty.

After doing this Course I also implement few basic projects like creating my own Nmap tool, encryption decryption, encoding and decoding tools for my penetration testing work.

Now the Main Point, Following the completion of this course If you are wondering what the career benefits of ethical hacking certificates are, then the information provided below will help you. Take a look at this:

1. Improves Your Understanding Of Risks And Threats

The main advantages of ethical hacking certificates are that you gain a better grasp of the threats and risks associated with various IT systems. It might be difficult to grasp the weaknesses in your computer system if you are unaware of the threats and risks linked with it.

Obtaining EC-Council CEH certification might assist you in understanding how hackers might examine your IT system and network before planning an attack. Understanding the respective course can aid you with a better understanding of it and ensure that you are always one step ahead of the attackers.
