Dear Pavan,

Its our pleasure to know that you have shown interest in providing scholarship towards girl students.

As already communicated to you, this scholarship initiative is to financially help meritorious and financially needy students to encourage them in their studies.

From our past conversations:

Among all applicants we had shared with you details of 2 girl applicants. You have already interviewed both the candidates on 11th March 2023.

We would hence like to know what are your plans for them. Also would like to know the organization/ team name under which you would like to add this scholarship and other details.

For our reference,

I am also attaching proof of our whatsapp conversation for the team's reference.
